THE WATERS OF GEORGETOWN DOES NOT DISCRIMINATE AGAINST ANY PERSON ON THE BASIS OF RACE, COLOR, NATIONAL ORIGIN, DISABILITY, OR AGE IN ADMISSION, TREATMENT OR PARTICIPATION IN ITS PROGRAMS, SERVICES AND ACTIVITIES.

Living Well

Our goal is to ensure that families have peace of mind knowing their loved one is safe and in good hands.

We understand the transition to a skilled nursing facility can be difficult for the resident and loved ones, whether for a short term rehabilitation stay or long-term care. Our team of professionals offers comprehensive healthcare services to meet the individualized needs of the resident, ranging from short-term rehabilitation services to caring for clinically-complex residents.

In Motion

Our individualized care plans and specialized treatment options benefit patients as they recover and get stronger. Whether for a short-term rehabilitative stay or long-term, restorative care, you'll see the progress a quality treatment program can provide.

We offer a unique and holistic approach to caring for residents with Alzheimer's disease and other dementias, at all stages. Residents enjoy a home-like environment along with the care of a dedicated and compassionate team who understand the disease process. Each day, residents are encouraged to participate in daily activities as much as possible and to live each moment to the fullest.

Respite Care

Enjoy a temporary home away from home.

Our Respite Care program strives to offer complete, unconditional support for you and your family by providing short-term, temporary care to give you a break from the daily routine of caregiving. Whether you want to take a family vacation, or just a few days of time off, we can customize a schedule to meet you and your loved one's needs.

Activities of Daily Living (ADL)

Our ADL room provides an area for performing Instrumental Activities of Daily Living such as cooking and housekeeping tasks that are necessary for successful independent living. Ongoing assessments and interventions with our therapists assist our clients with a safe transition home.

Our Services Include:

- Cardiac Care
- Respiratory Care
- Diabetes Management
